Project Name	Implement Client Script & UI Policy (Incident)
Team Size	5
Team Leader	DHIVYA DHARSHINI R
Team Members	DIVYALAKSHMI R; GAYATHRI S; GUNASUNDARI SIVAKUMAR; HARINI M

Brainstorm & Idea Prioritization Template:

Brainstorming provides a free and open environment that encourages everyone within a team to participate in the creative thinking process that leads to problem solving. Prioritizing ideas can help the team focus on the most useful and feasible solutions.

Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts together.

Step-1: Team Gathering, Collaboration and Select the Problem Statement

- Brainstorm: Encourage every team member to contribute ideas freely.
- Team participation: Discuss the problem and collect different viewpoints.
- Select the problem statement: Agree on a clear problem statement that the project will address.

Step-2: Brainstorm, Idea Listing and Grouping

List all ideas generated by the team, then group similar ideas into meaningful categories.

Step-3: Idea Prioritization

Prioritize the ideas by considering factors such as feasibility and importance/impact. Ideas with higher feasibility and higher importance can be considered for further development.

Brainstorm & Idea Prioritization Template:

Brainstorming provides a free and open environment that encourages everyone within a team to participate in the creative thinking process that leads to problem solving. Prioritizing volume over value, out-of-the-box ideas are welcome and built upon, and all participants are encouraged to collaborate, helping each other develop a rich amount of creative solutions.

Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.
