

Full Stack Development with MERN

Project Documentation

1. Introduction

Project Title: Implement Client Script & UI Policy (Incident)

Team ID: SWTID-2026-8514

Team Size: 5

Team Leader: DHIVYA DHARSHINI R

Team Member: DIVYALAKSHMI R

Team Member: GAYATHRI S

Team Member: GUNASUNDARI SIVAKUMAR

Team Member: HARINI M

2. Project Overview

- Purpose: Briefly describe the purpose and goals of the project.
- Features: Highlight key features and functionalities.

3. Architecture

- Frontend: Describe the frontend architecture.
- Backend: Describe the backend architecture.
- Database: Detail the database schema and interactions.

4. Setup Instructions

- Prerequisites: List software dependencies required for the project.
- Installation: Step-by-step guide to clone, install dependencies, and set up the environment variables.

5. Folder Structure

- Client: Describe the structure of the frontend.

- Server: Explain the organization of the backend.

6. Running the Application

- Provide commands to start the application locally.
- Frontend: npm start in the client directory.
- Backend: npm start in the server directory.

7. API Documentation

- Document all endpoints exposed by the backend.
- Include request methods, parameters, and example responses.

8. Authentication

- Explain how authentication and authorization are handled in the project.
- Include details about tokens, sessions, or other methods used.

9. User Interface

- Provide screenshots or GIFs showcasing different UI features.

10. Testing

- Describe the testing strategy and tools used.

11. Screenshots or Demo

- Provide screenshots or a link to a demo to showcase the application.

12. Known Issues

- Document any known bugs or issues that users or developers should be aware of.

13. Future Enhancements

- Outline potential future features or improvements that could be made to the project.
